

Invitation to Tender
HVDC Converter Engineer Services for NorthConnect KS
19 April 2018

HVDC Converter Engineer Services

19 April 2018

Background

NorthConnect is looking to contract one HVDC Engineer (Equipment) as per requirements in Job Description and Standard Contract (both posted with this ITT on northconnect.no)

A Company may offer additional Engineers to the same requirement, but number offered is not a part of the evaluation.

NorthConnect reserves the right to contract more Consultants than the highest ranked Consultant, at our own discretion.

Utilization

NorthConnect anticipates requiring 100 Hours from May 2018 to September 2018 and 700 hours between September 2018 and February 2019. At times up to 3 weeks of continuous work may be required at a location in Europe determined by NorthConnect.

Content of Application

Please do not submit general presentations of your Company, we only want the here-in requested information.

The application shall contain:

- A list of Consultants offered
- Relevant professional CV's of each Consultant offered
- A statement of availability for each Consultant offered through 2018
- For each Consultant offered, a brief description for each of the bullet points under Heading "Required qualifications and competencies", in the Job Description.
- For each Consultant offered, two recent (from 2010 and later) external reference assignments, incl short description and Contact person with contact details.
- For each Consultant offered the requested hourly rate in NOK without VAT. The rates shall apply through 2018. Increase thereafter is at NorthConnect discretion.
- A signed assurance that the NorthConnect Supplier Code of Conduct will be adhered to.

Evaluation

- Non-conformance of the required content of the application may cause a rejection of the bid.
 - Bids arriving after 30 April 2018 noon (CET) will be rejected.
 - Excessive qualifications on terms may cause a rejection of the bid.
 - Limited availability, or substantial qualifications to availability may cause rejection of bid.
1. Each Consultant offered shall be evaluated individually.
 2. For each Company tendering, NorthConnect will identify the Consultant offered with the highest rating.
 3. The individual highest rated Consultants from each Company tendering, will be ranked. The highest ranked Consultant will be awarded the Contract, or when tendered through a Company, it will be awarded the Contract.

In evaluation of each consultant, 30% will be appraised on hourly rate, and 70% will be based on a NorthConnect appraisal of relevant experience, extent of experience, relevant academic degrees, relevant expertise, and possibly references.

How to apply

Please send to Fredrik Rüter (fredrik.ruter@northconnect.no) no later than noon (CET) 30 April 2018.

Questions (in writing) may be raised to the above but no later than noon (CET) 8 January 2018.

Answers will be made not to identify sender, and sent to all tenderers.

Planned award date is 2 May 2018.
